EDUCATION

B.Compt (Unisa)

“ I have a passion for problem solving, and love ‘getting my hands dirty’ when faced with a new challenge. You are more likely to find me working with the team, in their respective areas, than sitting behind a desk all day. My journey with FACTS has shown me that anything and everything can be accomplished when you have a dedicated team with high values and a very strong family feel.”

EXPERIENCE & SKILLS

- Financial management
- Income tax
- Government grants and tenders
- Understanding and analysing company financial needs

PROFILE

Bianca has financial management experience in many of the major sectors in South Africa, e.g. manufacturing, farming, hospitality, retail and the service industry. She attained her BCOMPT degree through UNISA, and has since completed her articles. She prefers to work with small- to medium-sized businesses, as she feels you then become part of the ‘family’, and can make a real difference.

When Bianca is not in front of her laptop getting management accounts ready she loves to read, have fun in the kitchen testing new recipes, play with her dogs, and spend time with friends.
